DETAILED ACTION

Applicants amendment filed January 3, 2002 (Paper No.10) will not be entered because the new limitation proposed in claim 1 raises new issues that would require further consideration and search. For example, the proposed claim recites a pH limitation that has not been previously considered and requires a new literature search and further consideration. In addition, the new PH limitation recited in the proposed claim is new matter since there is no support for a pH of 1-7 (i.e. the pH could be 0). Applicant's arguments drawn to this limitation in the amended claim and the claims that depend thereon are moot in view of the non-entry of the proposed amendment.
